About

- I'm a passionate software engineer with over 10 years of professional development experience.
- I have been involved in the development of more than 10 apps published in the App stores. Two of them achieved the **#1 place** in the App Store and Google Play Store worldwide: *DoveConviene (Shopfully)* and *indoona (Tiscali)*.
- My work on the Vivocha Mobile SDKs runs inside the apps of **large international players** in the **Insurance** and **Banking** industries.
- In my professional journey I had the chance to manage small and medium development teams, interface with stakeholders, act as Scrum Master and **learn how to cope with stressful work loads and successfully deliver products on strict time constraints**.
- I'm always eager to learn new things and I love when I get the chance to *hack* with technologies which are not in my *official* tech stack.
- Another thing about me is that I like to break things, meaning that I'm a natural on finding issues on software, "*Did Mike test it?*" it's already a *meme* inside my current team.

Technical Skills

iOS, Android, Objective-C, Swift, Java, git, Xcode, Android Studio, XMPP, UIKit, Socket IO, proprietary SDK development, C, Native WebRTC development.

Professional Experience

- <> **Senior Mobile Engineer @ Vivocha (Covisian Group)** | Mar. 2018 - Current
Since my return to Vivocha, I have been managing a small developer team working both on maintaining and adding features on the existing Vivocha Mobile SDKs and creating new apps for the Covisian Group, such as the main applications used daily by all the workforce of 25k and more colleagues.
- <> **CTO and Co-Founder @ CoderStreet** | Mar. 2017 - Dec. 2020
- <> **Mobile Platform Architect @ DoveConviene - Shopfully** | Jan. 2016 - Mar. 2017
In charge of helping the mobile team leaders defining approaches and solutions to be implemented on the main apps and of doing R&D for new features and cross-platform development.
- <> **Lead Mobile Developer @ Vivocha** | *Startup* | Oct. 2013 - Dec. 2015
Created and maintained the Vivocha iOS and Android SDKs.
- <> **iOS Developer @ Tiscali** | *Internet Service Provider* | Oct. 2012 - Oct. 2013
One of the three-member core team of indoona for iOS, a VoIP app with an integrated Twitter-like social network.
- <> **Lead iOS Developer @ Zetesis** | Feb. 2011 - Oct. 2012

Education

-  **Bachelor's Degree** in **Computer Science** | *University of Cagliari* | 2010
